Profile

To enhance my professional skills, capabilities, and knowledge in a growth-oriented organization that recognizes the value of hard work, dedication, and continuous learning. I aim to contribute my technical and problem-solving skills while taking on responsibilities and challenges that help me grow both professionally and personally.

Experience

Java Developer Intern

Sep 2025 – Nov 2025

ElevateLabs

- Completed a 45-day internship focused on backend development using Java.
- Worked on building and optimizing web applications.
- Improved understanding of Java programming and application development.
- Collaborated on practical development tasks and learned industry workflows.

Web Development Intern

July 2025 – Aug 2025

VaultofCodes

- Learned and applied HTML, CSS, and JavaScript in real-time projects.
- Worked on front-end web design and UI development.
- Improved user interface and responsive web development skills.

Education

TKR College Of Engineering and Technology

2022 – 2026

Bachelor of Technology (B.Tech) – Computer Science Engineering

Hyderabad

New Masterminds Junior College

2020 – 2022

Intermediate (MPC)

Hyderabad

ShanthiNiketan High School

2019 – 2020

SSC

Hyderabad

Skills

Technical Skills

- **Web Development :** HTML, CSS, Javascript
- **Programming Language :** Python, Java
- **Database Management:** MySQL
- **Data Visualization & Analytics:** Power BI, Tableau, Microsoft Excel
- **Version Control & Collaboration:** Git, GitHub

Non Technical Skills

- Communication Skills, Time management, Hard worker, Quick learner

Languages

- English
- Telugu

Certificates

- Web Development Internship - ValutofCodes
- Java Developer Internship - ElevateLabs
- Salesforce Certified Agentforce Specialist - Salesforce

Projects

Plant Disease Detection Using Image Processing Techniques

Technologies: Python, CNN, Machine Learning, OpenCV

- Developed a plant disease detection system using image processing and CNN.
- Implemented image upload, preprocessing, and disease prediction features.
- Classified plant diseases from leaf images with improved accuracy.
- Provided disease information and fertilizer recommendations.
- Supported early disease detection for better crop management.

Food Restaurant Ordering Website

Technologies: HTML, CSS, JavaScript, Node.js, Express.js, MySQL

- Developed a full-stack food ordering web application with user authentication.
- Implemented menu browsing, cart management, and order placement features.
- Designed an admin dashboard for managing food items and orders.
- Integrated MySQL database and REST APIs for seamless data management.
- Built a responsive user interface for an improved user experience.
